William Data Systems (WDS) is a pioneer of specialized IBM System z™ network management solutions. Established in 1993, we are an independent global company that provides innovative solutions to run mainframe networks efficiently and securely. ZEN, the WDS network management suite, offers a selection of user friendly and cost-effective solutions to meet your unique needs. To overcome both business and technology challenges, WDS provides customers with licensing and pricing terms that are as flexible as our solutions.

WDS supports customers worldwide and our client list includes Fortune 100 companies and government agencies. WDS is an IBM Business Partner and a member of the IBM PartnerWorld for Developers program. We are committed to the global z/OS networking market and to leading the way with innovative solutions.

PRODUCTS

Our products and features include:

ZEN

Optimize mainframe network management. Integrate and operate your tools seamlessly through one innovative interface, customized to your unique business needs.

ZEN APPLICATION GATEWAY

A beautifully simple way of testing and implementing IPv6 under z/OS without the need for additional application, network or hardware changes.

ZEN AUTOMATION

Automate all your network and operations tasks and build your own ZEN applications by exploiting the power and flexibility of REXX.

ZEN IP MONITOR - *IMPLEX*

Identify network issues instantly to minimize down time. Focus your recovery efforts easily with intelligent reporting and absolute real-time monitoring.

ZEN OSA MONITOR

Optimize the operation of your IBM Open Systems Adapters' by ensuring the throughput of these strategic communications devices is maximized.

ZEN LINUX MONITOR

A simple but effective network and availability monitor for all your Linux systems (not just System z) integrated into ZEN for maximum network management capability.

ZEN EE MONITOR - *FERRET*

Implement Enterprise Extender (EE) with ease and improve APPN/HPR network operations and performance with this powerful and user-friendly monitoring solution.

ZEN EE SECURITY - *APIAS*

Confidently and efficiently fill the security gaps existing on the networks linking your business partners' legacy applications to yours.

ZEN FTP CONTROL - *FTPALERT*

Monitor and audit all FTP file transfers in real time with this efficient tool which ensures compliance with statutory, regulatory requirements.

ZEN TRACE & SOLVE - *EXIGENCE*

Promptly diagnose network and application issues – small and large – as they arise. Minimize network outage and get back to business quicker.

SUPPORT

William Data Systems have built an exceptional reputation for outstanding customer support. We provide comprehensive, effective and highly responsive support for WDS products at all stages of their life cycle.

In addition, a wide range of Professional Services and training programs are available dependent on user demand. These can be held at WDS offices, customer sites or managed remotely via web conferencing.
